EAA Copolymer Coated Aluminum tapes

EAA Copolymer Coated Aluminum tapes

Description

- ✔ A-grade quality aluminum tape – Alloy: AA1050 – 1060
- ✔ Single / double side coated with EAA Copolymer of natural or blue color
- ✔ Excellent mechanical properties on strength and elongation
- ✔ Smooth and flexible
- ✔ Easy processable and folding to ensure high speed processes
- ✔ Long production lengths on pads

Application

- ✔ Moisture and chemical barrier of mainly power, data and special cable constructions
- ✔ Shielding layer for fiber optic, communication and coaxial cable constructions
- ✔ Apply tape either longitudinal or hellenical

EAA Copolymer Coated Aluminum tapes
