## EAA Copolymer Coated Steel Tapes

## EAA Copolymer Coated Steel Tapes

---

### Description

- ✔ Low carbon A-grade quality (stainless) steel tape
- ✔ Single / double side coated with EAA Copolymer of green color
- ✔ Excellent mechanical properties on strength and elongation
- ✔ Perfect bonding of EAA copolymer at steel substrate
- ✔ Easy processable to ensure optimal production processes
- ✔ Electrolytic Chrome-coated steel (ECCS) corrosion, crush & twist protection
- ✔ Excellent resistant against crush and twisting; stainless steel 304 substrate
- ✔ Long production lengths on pads

### Application

- ✔ Moisture and chemical barrier of mainly power, data and special cable constructions
- ✔ Rodent protection to ensure long lifespan
- ✔ Apply tape either longitudinal or hellenical
